

Press Release

Council Supports the replacement of the Listowel Memorial Arena!

On Monday January 18, 2010 the needs and desires of the community were recognized as the North Perth Council supported a motion that will allow the Recreation Complex Committee (“NPRCC”) to proceed with the planning, and eventual development of a new recreation complex, one that will replace the existing arena.

The next step for the NPRCC will be gathering information from the public and user groups to determine what amenities the community feels are needed as well as what North Perth as a whole can support.

The residents of North Perth are encouraged to complete any forthcoming questionnaires and attend upcoming public forums to help us determine the needs of our community. All information relating to this project will be posted on the Municipality’s website and public meeting dates will advertised.
